PHC 50-2C/L

Duplex connecting chain link, ANSI

Chains are critical components in power transmission systems. Robust, quality chain drives extend mean time between failures, which reduces maintenance costs. Duplex connecting chain links are used to connect the two ends of a chain together. Both the spring clip and cotter pin type connecting links can be disassembled and replaced easily. The riveted type provides a very strong link, and has a similar fatigue strength as the other links in the chain.

- Provide a strong link
- Easy to disassemble and replace
- Available as simplex, duplex and triplex

Overview

Dimensions

Pitch	15.88 mm
Roller diameter max	10.16 mm
Width between inner plates min	9.4 mm
Pin diameter max	5.08 mm
Plate height max	15.09 mm
Plate thickness max	2.03 mm

Properties

Chain number	50-2
Standard	ANSI
Link type	Connecting link
Weight per meter	2 kg

Logistics

Product net weight	0.0304 kg
eClass code	23-17-04-90
UNSPSC code	26111505
