

97927 Industrial Heat Gun

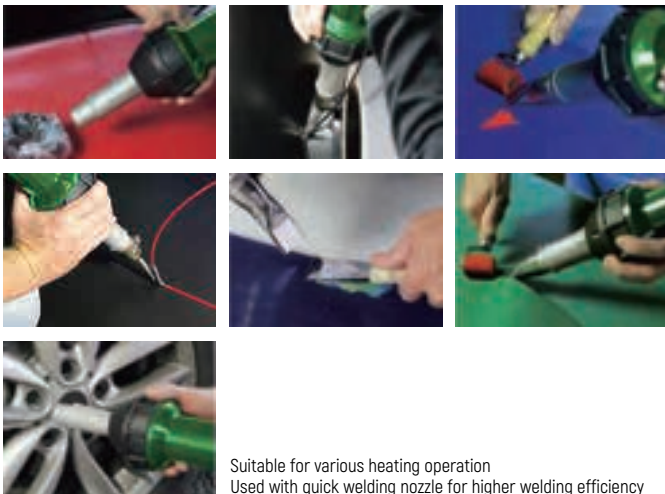

2 nozzles provided for free (Spreader Nozzle of 20MM, standard round nozzle of 5MM)

Large turbofan for stable output air volume and low noise

Customized industrial motors adopted for continuous operation of production line

Suitable for various heating operation
Used with quick welding nozzle for higher welding efficiency

- Industrial hot air gun with customized industrial motor, suitable for continuous use on production lines
- Air outlet temperature up to 700° C
- High-power fan for high air supply efficiency and low noise
- Anti-watering and anti-electric design, suitable for outdoor work
- Design featured by quick replacement of the heating core and carbon brush
- Fragile heating core, no dropping

No.			
97927	-	5	16

▲ 1-year warranty for overall unit except heating core.

Optional Components of Industrial Heat Gun

97930 Tubular Nozzle Φ5mm

• Application: Plastic welding and car body repair

No.			
97930	-	50	1.8

▲ Excluded from lifetime warranty terms.

97933 Triangular Speed Welding Nozzle 7mm

• Application: Fast plastic welding with plastic welding rod

No.			
97933	-	50	1.1

▲ Excluded from lifetime warranty terms.

97935 Tacking Nozzle

• Application: Fine welding operation

No.			
97935	-	50	1

▲ Excluded from lifetime warranty terms.

Spreader Nozzle

• Application: Small area welding and heating

No.	Spec. (mm)			
97928	20	-	50	2.6
97929	40	-	50	2.7

▲ Excluded from lifetime warranty terms.
