

# CUTTING TOOLS

## Knife & Blade Safety

Use Safety goggles. Serious eye injury is possible  
Always be sure that blades are properly seated in knives and that knives are properly closed and/or fastened  
Never leave a knife unattended with the blade exposed  
Always use sharp blades. A dull blade requires more force and is more likely to slip than a sharp one. Change the blades whenever it starts to tear instead of cut  
Always keep your free hand away from the line of cut  
When making cuts on a surface below you, stand or kneel to one side of the line to cut  
Always pull the knife toward you when making a cut on a flat surface. a pulling motion is stronger and more positive than pushing the knife away from you, and the knife is less likely to slip  
When using a straight edge to guide a cut, either clamp it down or keep your free hand well away from the cutting path of the knife. be sure the straight edge is thick enough to prevent the knife from " riding up " over the edge and cutting you  
Do not bend or apply side loads to blades by using them to open cans or pry loose object. ✘  
Blades are brittle and can easily snap  
When using a knife to cut through thick materials, be patient-make several passes, cutting a little deeper into the material with each pass

## Snip Safety

Use Safety goggles. Serious eye injury is possible  
Be careful of the sharp edges on the cutting edges of these tools  
Wear gloves when working with snips  
Use snips for cutting soft metal only. Hard or hardened metal may damage the cutting edges of the snips  
Use the right size and type of snips for the job at hand. do not try to cut sharp curves with straight cut snips  
Use only hand pressure for cutting. Never hammer or use foot to get extra pressure on the cutting edges  
Oil pivot bolt on the snips occasionally  
Do not use snips as a hammer, screwdriver, or pry bar

## CUTTING TOOLS - InterLock® SELF RETRACTING UTILITY KNIFE

Special round nose  
Heavy duty blade

With special round nose heavy duty blade for ultimate safety  
Blade automatically retracts for safe storage  
Imported new pattern double colour plastic, Aesthetic Impact  
Lock button using the metal material nickel plating accomplished, Durable, strong Lock

Part No.	Description	Size	Colour	Pri. Box Qty	Sec. Box Qty	₹(Each)
10-189	SELF RETRACTABLE UTILITY KNIFE	144mm / 5 5/8	ORANGE/RED	6	36	342

## CUTTING TOOLS - Classic99® RETRACTABLE UTILITY KNIFE

Die cast zinc body shaped for comfort in use  
Multi position blade slide  
3pcs blade storage in handle
